Three-Side Sealed Pouches

Three-side sealed pouches are qualitative and economical flat pouches, which are made from one piece of film and sealed on the two sides and top or the top is left open for filling the content.

These pouches have “Higher Filling Volume” whereas the pouches which are four-sided sealed would not be able to hold likewise filling. The companies, who have to run cost effectively, opt for these pouches as they offer reasonable packaging solutions.

Some of the key benefits include

- ✓ Cost-effective packaging solution
